FERNO Compact 1 & 2 Carry Chairs

The Compact Carry Chair range of chairs are durable, robust and are manufactured from stainless steel. Their one piece back and seat flame retardant, vinyl coated nylon covers allows the patient to adopt a comfortable position during transfer.

The Compact range design incorporates safety rings which slide over the folding mechanism.

Compact 1 Carry Chair

- Seat covers can simply be wiped clean for maximum hygiene
- Folds neatly into a compact size for easy stowage
- 7" wheels for ease of manoeuvring
- Maximum Load 200kg
- Easily adjustable chest and ankle restraints are quickly applied
- Unique style lifting loops help the user to adopt a secure grip
- Large wheels and an axle bar to provide stability over uneven ground

The Compact 1 proven chair is invaluable when transferring patients through corridors and lifts due to it's narrow design and large rear wheels.

The Compact 2 Carry Chair has been designed with ergonomic front grip handles for improved posture when carrying patients down stairs.

Compact 2 Carry Chair
